Beyond the Breach: Leadership, Resilience, and the Future of Cybersecurity

If you lead security in a large, complex enterprise, this is your room. Filled with CISOs and senior security leaders who are dealing with the same realities you are: escalating threat activity, increasing regulatory pressure, AI-driven disruption, and the constant demand to secure the business while enabling it to move faster.

Key Themes

AI & Emerging Cyber Risk

Exploring how AI is transforming both cyber defence and cyber threats, creating new opportunities, vulnerabilities, and governance challenges for security leaders.

Resilience, Response & Recovery

Examining how organizations can strengthen their ability to withstand, respond to, and recover from increasingly sophisticated cyber incidents.

CISO Leadership & Business Alignment

Focusing on the evolving role of the CISO as a strategic business leader responsible for balancing security, innovation, risk, and executive expectations.

Human Risk, Trust & Security Culture

Addressing the people, behaviors, and organizational dynamics that influence security outcomes, from insider risk and employee engagement to trust in the age of AI

Afternoon Roundtables

These interactive roundtables are designed to foster candid peer-to-peer discussion among CISOs and senior security leaders on some of the most pressing cybersecurity challenges facing organizations today. In a confidential and collaborative setting, participants will have the opportunity to share experiences, compare approaches, and explore practical strategies with fellow executives. Each session will run for 35 minutes, after which you will have a new set of moderators and a new topic, bringing fresh perspectives, diverse viewpoints, and new insights.

RT1: AI-Driven Threats

Unpack the rise of AI-powered attacks, evolving fraud tactics, and the future impact of AI and quantum computing on cyber risk.

Hosts: Afzal Khan, **OPKO** | Ellis Wong, **JST DIGITAL** | Sharad Rai, **STATE STREET** | Vincent Dillard, **THREATLOCKER**

RT2: Bridging Security & GRC

Strengthen containment, backup, and recovery plans as ransomware tactics evolve.

Hosts: Prasant Tangirala, **CITY OF STAMFORD** | Toyin Makinde, **JUST EAT TAKEAWAY** | Rob LaRosa, **GELLER & CO**

RT3: Secure AI Copilots

Learn how to securely adopt AI tools by managing data risks, controlling access, and establishing governance frameworks that enable innovation without compromising security.

Hosts: Harish Vundavalli, **STRATEGIC EDUCATION, INC.** | John Raven, **MICHAEL KORS** | Charlie Garlow, **SENTRA**

RT4: Who owns AI risk?

How organizations can build clear, risk-based AI governance that enables confident adoption while maintaining accountability and supporting innovation.

Host: Liron Golan, **LASER DIGITAL (Nomura Group)**

2:55 PM

RT5: Risk-Based Vulnerability Management

Develop and operationalize a risk-driven approach to prioritizing and remediating vulnerabilities across the enterprise.

Hosts: Nick Leghorn, **SIEMENS** | Rob Cross, **SYNACK**

RT6: Security Theater, Sacred Cows, and What Actually Reduces Risk

Challenging security assumptions to uncover what genuinely reduces risk today.

Hosts: Chris Parren, **STACKTITAN** | Dan Kottmann, **STACKTITAN**

RT7: Identity Is the New Perimeter

Strengthen identity governance and zero-trust principles to protect against credential-based attacks and lateral movement.

Hosts: Galo Vaca, **NORTHFIELD BANK** | Dominic Forrest, **IPROOV**

RT8: Observability, Traceability & Verifiability in AI

Gain insights into how organisations are increasing confidence in AI by improving visibility, validating outputs, and managing risks associated with AI-driven decisions.

Hosts: Praveen Nallasamy, **BLACKROCK*** | Eric Brosius, **SUN RIVER HEALTH**

3:30 PM

Afternoon Break & Networking

A chance to refresh, exchange insights, and build new connections before the afternoon sessions begin.

4:00 PM

Keynote: From Threat Intelligence to Detection

A real-world case study on using multi-agent AI to turn threat intelligence into actionable detections, with practical lessons on orchestration, reliability, human oversight, and scalability.

Speakers: Felipe Giraldo, **CLS GROUP** | Maggie Cao, **CLS GROUP**

4:20 PM

Fireside Chat: The First 24 Hours

Behind every major breach is a moment of truth. Explore how security leaders manage the first 24 hours, balance competing priorities, and lead through crisis.

Speakers: Len Smuglin, **FINRA** | Catherine Burns, **FINRA**

4:40 PM

Expert AMA: Building Future CISOs

The future of cybersecurity leadership starts today. Discuss how organisations can identify, mentor, and empower the next generation of CISOs to lead in an evolving threat landscape.
